# CONCRETE SLEEPERS MANUFACTURED IN CANBERRA

Concrete Sleepers Canberra is a family-owned business with over 50 years of experience in manufacturing concrete products.

In 2006, the Bink family decided to start manufacturing concrete sleepers. Now, we are one of the leading manufacturers in Australia.

When purchasing from Concrete Sleepers Canberra, you are buying a locally manufactured product that helps support our small family business that employs members of the local community.

MANUFACTURING CONCRETE PRODUCTS SINCE 1961

## 50+ YEARS EXPERIENCE

We have been manufacturing precast concrete since 1961.

In 1961, Jack Bink commenced his concrete business in Canberra. Initially the business was known as Bink Cement Products however, in 2006, Jack's brother John Bink, having 40 years experience in precast concrete, branched out and began manufacturing a range of concrete sleepers. Concrete sleepers have proven to be very popular both in the home maintenance area, and in the commercial sector. Being sold as far as Cairns, Queensland, Melbourne and Sydney.

## WHY BUY OUR SLEEPERS?

We have generational experience in manufacturing concrete products for 50+ years. We are focused on manufacturing concrete products to the highest standard possible.

We pride ourselves on providing exceptional customer service for all jobs, from DIY projects to civil developments.

We have had our sleepers designed by a structural engineer to ensure that maximum strength, durability and longevity is achieved to meet Australian standards.

# Colourbond Sleepers UFP

Under fence plinths (UFP's) are not designed or suitable for retaining purposes – they are not a concrete sleeper built for retaining walls.

- UFP's are designed to fill the gap underneath a fence.
- Provide extra privacy (200/400mm increase in height).
- Prolong the life of the fence as the fence panel sits on the concrete plinth rather than on the dirt or timber sleeper.

Size	Colour	Price	Weight	REO	Max Height OKPA
2350 X 200 X 60	Charcoal	\$61.00	65KG	2 X N12	0.4M
2350 X 200 X 60	Natural	\$61.00	65KG	2 X N12	0.4M
2350 X 200 X 60	Tan	\$63.00	65KG	2 X N12	0.4M
2350 X 200 X 60	Beach	\$68.00	65KG	2 X N12	0.4M

# Quality Assured

Our concrete UFP's are strong and entirely zero-maintenance, giving you the peace of mind that they'll last for a long, long time. Because our UFP's are concrete, they aren't susceptible to termites and won't rot, warp or split like timber under fence plinths can.

# Step Frames

## Integrated Concrete Step System

Our step frames are made from 3mm thick steel that is then Hot-Dip galvanised for corrosion protection. Step frames are sold as a set of two frames but can also be sold separately if required.

### 200 Series

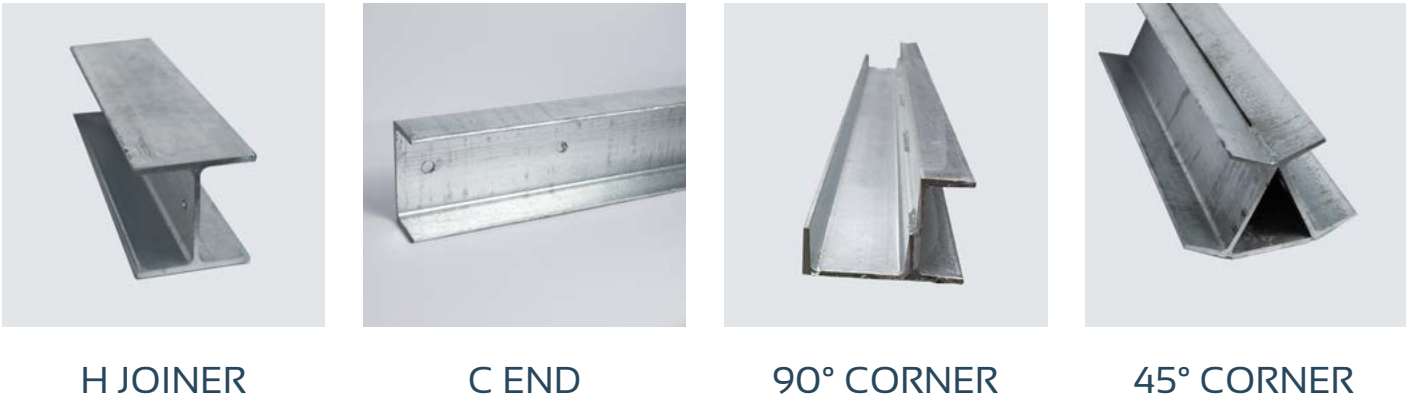

### 150 Series - Suitable for 1.8 smooth sleepers only

# Accessories

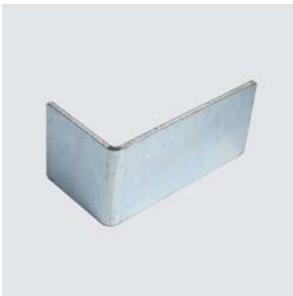

## Steel Post Caps

Steel post caps are made from 6mm thick steel with rounded corners to take away any sharp edges available to suit End, Joiner and Corner posts. All caps come with a galvanised coating. Simply attach to the steel post using Toolbox Adhesive.

### Top Caps

Size - 105x100x6	Size - 100x50x6	Size - 150x100x6	Size - 160x100x6
H Joiner \$6.50	C End \$6.00	90 Corner \$9.50	45 Corner \$10.50

## Steel Down Caps

Step down caps have been designed to cap off the H joiner post when stepping down in wall height by one or two sleeper increments giving the wall a clean finished look while taking away any sharp edges.

- Single step down 200x100x6
- Double step down 400x100x6

## Concrete Post Covers

Concrete post covers are a great alternative to leaving steel posts with an exposed galvanised finish. Available in all patterns and colours they will bring your sleeper wall to life by making the wall look seamless and the steel post look non-existent.

Post covers are made the same height as a concrete sleeper and same width as the 100 series steel post. Post covers are attached to the steel post with Toolbox Adhesive.

### C Post Cover - \$5.00ea

Available finishes - Shatter, Sawmill, Smooth

### H Post Cover - \$6.00ea

Available finishes - Shatter, Sawmill, Smooth, Hampton, Stackstone

### 90 Corner Post Cover - \$7.00ea

Available finish - Sawmill

## Concrete Post Top

Smooth finish – all colours

Size - 105x110x20	Size - 110x60x20	Size - 160x110x20
H Joiner \$6.50	C End \$6.00	90 Corner \$9.50

## Colourbond Fence Bracket

### COLOURBOND FENCING

- Neat finish between the retaining wall and fence
- Fence sits directly on top of the wall
- DIY installation

This amazing space saving bracket is engineer designed to carry a colour bond fence on top of a concrete sleeper retaining wall. The straight fence bracket allows your fence to bolt directly on top of your retaining wall. Made from a 10mm galvanised steel plate, it is easily installed to your steel post and is weight rated to carry a colour bond fence.

Price: \$35.00

Size: 600x50x10mm

## Square Post Bracket – 50

### TUBULAR FENCEING – SLAT FENCING

-50 post bracket is a two-part system. Part - 1 is a steel plate that bolts to the steel post. Part 2 is a 45mm sleeve that is then screwed off to part 1 to allow for a 50x50 square post to be attached.

Price: \$35.00

Size: 500x45x6mm  
Insert: 300x45x2mm

## Nut & Bolt

Nut & Bolt suitable for bolting fence brackets to a steel retaining wall post.

Price: \$1.50ea

Gauge: 10x25mm

# Accessories

## Crommelin Sealer

Satin Sealer is a surface treatment that provides a finish that enhances natural colours, making treated areas easier to maintain and keep clean.

6L Sealer \$111.00

## Crommelin Clean & Prep

A superior treatment for the removal of efflorescence & to prepare the surface for sealing.

4L \$38.50

## Crommelin Waterproofing

Crommelin Bitumen Waterproofing is a high performance, synthetic rubber based membrane, designed to deliver exceptional waterproofing performance.

It is recommended for treating concrete sleepers if cut down to size. This will prevent moisture from effecting the performance of the steel reinforcement bars.

1L \$22.55

## Tool Box Adhesive

- Permanently flexible
- Grabs fast
- Bonding of Concrete & Steel

Price: \$19.00

## Geotextile Fabric

Geofabric material is placed behind the sleeper retaining wall acting as a separator or filter allowing water to drain through while soil particles are retained.

Roll \$99.00

Size: 1.0 x 50m

## Spray Paint

### Etch Primer

Etches surface for optimal topcoat performance.

Price: \$16.50

### Dulux Metal Shield

In a choice of colours to best match your concrete sleeper.

Price: \$16.50

Colours: Satin Black, Monument, Jasper, Classic Cream

# Accessories

## Sleeper Lifting Grab

Using a Sleeper lifting Grab is a safe and efficient way of handling sleepers with any style of earth moving machine.

**Price:\$830.00**  
**Hire: \$80 per day**

## Packing Wedges

Designed specifically for packing concrete sleepers forward in the steel posts to give your wall a professional finish.

**Pack of 50 wedges \$31.50**  
Size: 55 x 25mm

## Sleeper Spacer Bar

Adjustable prop used to space steel posts the correct distance apart when setting out posts for a sleeper retaining wall.

Tilting Non-Slip Pads – Quick Set Up – Threaded Shaft- Adjusting and Locking System

**Price: \$115.00ea**  
Suitable for spacing 1550 – 2900mm

## Steel Footing Pad

It's very important when installing concrete sleepers to have them sit on a solid pad to avoid sinking over time. Simply installed by pressing into the post footing when the concrete is wet and adjust height to suit.

Available in two lengths:

**300mm \$8.80**  
**600mm \$9.70**
